Ade-Hall, J. M. & Dagley, Peter, Cretaceous, Tertiary and Quaternary palaeomagnetic results from Hungary 65
Al-Shaikh, Z. D., The geological structure of part of the Central Irish Sea 233
Alterman, Z. S. & Lowenthal, D., Seismic waves in a quarter and three-quarter plane.. 101
Arkani-Hamed, Jafar, Lateral variations of density in the mantle 431
Athavale, R. N. & Verma, R. K., Palaeomagnetic results on Gondwana dykes from the Damodar Valley coal-fields and their bearing on the sequence of Mesozoic igneous activity in India 303
Bolt, Bruce A., *PdP* and *PkiP* waves and diffracted *PcP* waves 367
Bott, M. H. P. & Hutton, M. A., A matrix method for interpreting oceanic magnetic anomalies 149
Bullen, K. E., Some *International Seismological Summary* Reminiscences 359
Christensen, Nikolas, I. & Shaw, George H., Elasticity of mafic rocks from the Mid-Atlantic Ridge 271
Cohen, T. J., Source-depth determinations using spectral pseudo-autocorrelation and cepstral analysis 223
Cox, Allan, Latitude dependence of the angular dispersion of the geomagnetic field .. 253
Creer, K. M. & Ispir, Y., Palaeomagnetic and rock magnetic studies on Cenozoic basalts from Kyushu, Japan 127
Dagley, Peter & Ade-Hall, J. M., Cretaceous, Tertiary and Quaternary palaeomagnetic results from Hungary 65
Eiby, G. A., New Zealand seismology and the *International Seismological Summary* .. 353
Ellis, Robert M. & Ishii, Horoshi, Multiple reflection of plane *P* and *SV* waves by a dipping layer.. 11
Francheteau, Jean & Sclater, John G., The implications of terrestrial heat flow observations on current tectonic and geochemical models of the crust and the upper mantle of the Earth 509
Gogna, M. L. & Lapwood, E. R., Regional travel-time tables 383
Gorbunova, I. V., Kondorskaya, N. V. & Landyreva, N. S.. On the determination of the extent of and Indian shock origin by kinematic data 457
Gose, Wulf Achim, Palaeomagnetic studies of Miocene ignimbrites from Nevada .. 241
Graham, Earl K., Elasticity and composition of the upper mantle 285
Hobbs, Bruce A. & Price, Albert T., Surface integral formulae for geomagnetic studies 49
Hutton, M. A. & Bott, M. H. P., A matrix method for interpreting oceanic magnetic anomalies 149
Ishii, Hiroshi & Ellis, Robert M., Multiple reflection of plane *P* and *SV* waves by a dipping layer.. 11
Ispir, Y. & Creer, K. M., Palaeomagnetic and rock magnetic studies on Cenozoic basalts from Kyushu, Japan 127
Johns, B.. On the determination of the tidal structure and residual current system in a narrow channel 159
Jones, F. Walter & Price, Albert T., The perturbations of alternating geomagnetic fields by conductivity anomalies 317
Keen, Charlotte & Tramontini, Clive, A seismic refraction survey on the Mid-Atlantic Ridge 473
Kondorskaya, N. V., Landyreva, N. S. & Gorbunova, I. V., On the determination of the extent of the Indian shock origin by kinematic data 457
Lamden, R. J., A Fourier covariance analysis of the long period magnetic field variations in the British Isles during 1958 177
Landyreva, N. S., Gorbunova, I. V. & Kondorskaya, N. V., On the determination of the extent of an Indian shock origin by kinematic data 457
Lapwood, E. R., Seismology in the Soviet Union 207
Lapwood, E. R. & Gogna, M. L., Regional travel-time tables 383
Lehmann, I., The reading of earthquake diagrams.. 391
Lilwall, R. C. & Underwood, R., Seismic network bias maps 335
Long, R. E. & Mitchell, M. G., Teleseismic *P*-wave delay time in Iceland 41
Lowenthal, D. & Alterman, Z. S., Seismic waves in a quarter and three-quarter plane.. 101
Luck, G. R., The Palaeomagnetism of some Cambrian and Ordovician sediments from the Northern Territory, Australia 31

SUBJECT INDEX

Book Reviews

The Seismicity of the Earth 1953–1965 99
Discoverers of Space 99
Mathematical Aspects of Seismology 100
Edmond Halley—Genius in Eclipse 239
The Encyclopedia of Geomorphology 543

Earth's mantle

Lateral variations of density in the mantle, *Jafar Arkani-Hamed* 431

Elasticity of rocks

Elasticity of mafic rocks from the Mid-Atlantic Ridge, *Nikolas I. Christensen & George H. Shaw* 271
Elasticity and composition of the upper mantle, *Earl K. Graham* 285

Geomagnetism

Surface integral formulae for geomagnetic studies, *Bruce A. Hobbs & Albert T. Price* 49
A Fourier covariance analysis of the long period magnetic field variations in the British Isles during 1958, *R. J. Lamden* 177
Latitude dependence of the angular dispersion of geomagnetic field, *Allan Cox* .. 253
The perturbations of alternating geomagnetic fields by conductivity anomalies, *F. Walter Jones & Albert T. Price* 317

Heat flow

The implications of terrestrial heat flow observations on current tectonic and geochemical models of the crust and the upper mantle of the Earth, *John G. Sclater & Jean Francheteau* 509

PAGE

Oceanography

On the determination of the tidal structure and residual current system in a narrow channel, *B. Johns* 159

Palaeomagnetism

Palaeomagnetic Stratigraphy of Tertiary lavas from Northern Ireland, *R. L. Wilson*.. 1
The Palaeomagnetism of some Cambrian and Ordovician sediments from the Northern Territory, Australia, *G. R. Luck* 31
Cretaceous, Tertiary and Quaternary palaeomagnetic results from Hungary, *Peter Dagley & J. M. Ade-Hall* 65
Palaeomagnetic and rock magnetic studies on Cenozoic basalts from Kyushu, Japan, *K. M. Creer & Y. Ispir* 127
A matrix method for interpreting oceanic magnetic anomalies, *M. H. P. Bott & M. A. Hutton* 149
The palaeomagnetism of the Antrim Plateau Volcanics of Northern Australia, *M. W. McElhinny & G. R. Luck* 191
Palaeomagnetic studies of Miocene ignimbrites from Nevada, *Wulf Achim Gose* .. 241
Palaeomagnetic results on Gondwana dykes from the Damodar Valley coal-fields and their bearing on the sequence of Mesozoic igneous activity in India, *R. N. Athavale & R. K. Verma* 303
Notes on progress in geophysics palaeomagnetic directions and pole positions—XI Pole numbers 11/1 to 11/90, *M. W. McElhinny* 417

Research Note

The geological structure of part of the Central Irish Sea, *Z. D. Al-Shaikh* 233

Seismology

Multiple reflection of plane *P* and *SV* waves by a dipping layer, *Hiroshi Ishii & Robert M. Ellis* 11
P-wave delay time in Iceland, *R. E. Long & M. G. Mitchell* 41
Statistical estimates of amplitude and phase corrections, *V. F. Pisarenko* 89
Seismic waves in a quarter and three-quarter plane, *A. S. Alterman & D. Lowenthal* .. 101
Seismology in the Soviet Union, *E. R. Lapwood* 207
Source-depth determinations using spectral pseudo-autocorrelation and cepstral analysis, *T. J. Cohen* 223
Seismic network bias maps, *R. C. Lilwall & R. Underwood* 335
On the determination of the extent of an Indian shock origin by kinematic data, *I. V. Gorbunova, N. V. Kondorskaya & N. S. Landyreva* 457
A seismic refraction survey on the Mid-Atlantic Ridge, *Charlotte Keen & Clive Tramontini* 473
Structure of the crust and upper mantle in the Iberian shield by means of a long period triangular arrray, *Gonzalo Payo* 493

Special Issue to commemorate the *International Seismological Summary*

The history of the *International Seismological Summary*, *Robert Stoneley* 343
The *International Seismological Summary* and the Federation of Astronomical and Geophysical Services, *D. H. Sadler* 351
New Zealand seismology and the *International Seismological Summary*, *G. A. Eiby* .. 353
Some *International Seismological Summary* reminiscences, *K. E. Bullen*.. 359
PdP and *PkiKP* waves and diffracted *PcP* waves *Bruce A. Bolt* 367
Regional travel-time tables, *E. R. Lapwood & M. L. Gogna* 383
The reading of earthquake diagrams, *I. Lehmann* 391
Aspects of the spectral differences between earthquakes and underground explosions, *P. D. Marshall* 397
